Pilgrims Yard

TILBURSTOW HILL GODSTONE

Nestled in a picturesque courtyard setting with sweeping rural views, Pilgrims Yard is a collection of nine unique and characterful homes which blend history and modernity. Crafted with precision and care by the esteemed local developer, Stateside Developments, these one, two, and three-bedroom residences were once part of the renowned Pilgrim Harps workshop and its grounds.

Each of these homes exudes its own distinct charm and personality, reflecting the rich history and craftsmanship that once thrived within the Pilgrim Harps workshop. The developer's skilful touch has breathed new life into this historic site, preserving its character while introducing contemporary features to suit the needs and preferences of modern homeowners.

Location

GODSTONE, IS IN MANY RESPECTS, THE ARCHETYPAL SURREY VILLAGE, WITH ITS ATTRACTIVE BLEND OF NEW AND OLD BUILDINGS, MANY OF THEM CLUSTERED AROUND A PICTURESQUE GREEN COMPLETE WITH A POND WHERE CARTERS USED TO WATER THEIR HORSES.

Godstone offers the best of both worlds as this picturesque scene is less than 20 miles from the centre of London. For the commuter, trains run direct from Oxted, approximately 3 miles away, to both Victoria (for the West End) and London Bridge (for the City) in well under an hour. Meanwhile, Junction 6 of the M25 is just on the outskirts of the village –which means that Brighton and other South Coast resorts can be reached by car in as little as 45 minutes, and Gatwick airport in considerably less.

But there is more to Godstone than just the exceptional convenience of its location. The village boasts a rich and vibrant community, with organisations catering for all ages from toddlers to pensioners, together with a number of sports clubs, notably cricket, and societies of special interest. In addition to an eclectic mix of shops,

pubs and restaurants, amenities also include a village school (Ofsted Rating Good), a post office, dentists, a pharmacy, a petrol station, a nature reserve, and the well renowned Godstone Farm. Meanwhile, a wider range of shopping, dining, entertainment and leisure facilities can be found in the nearby towns of Redhill and Reigate - the latter one of the most attractive old market towns in all of Surrey.

Further afield the North Downs and the beautiful wooded Surrey Hills, which together offer some of the best walking country in the whole of the South East, are just on the doorstep!

Pilgrims Yard can be found on Tilburstow Hill Road, which runs adjacent to the A22 runs between Godstone Village and Blindley Heath.

History

FOR OVER FOUR DECADES, THE WORKSHOPS OF PILGRIM HARPS, ONE OF THE UK'S MOST DISTINGUISHED HARP MANUFACTURERS, WERE SITUATED IN COACH EAST & WEST.

These workshops were home to the dedicated craftsmen and artisans who relentlessly pursued the creation of the finest harps. Their philosophy rested on three pillars: impeccable design, the use of flawless materials, and immaculate craftsmanship.

The craftsmen at Pilgrim Harps, produced each instrument by hand with exceptional materials. Their commitment to perfection has led them making the slightest improvements to their harps. While the aesthetics of the instruments are of great importance, their ultimate focus remained on the sound. They pay special attention to the richness and depth of tone, subtlety in dynamics and timbre, as well as clarity, projection, and power.

Before leaving the workshops, each harp underwent rigorous testing by one of the company's specialist harpists. These experts scrutinised every aspect of the harp's performance, ensuring accuracy of intonation and regulation.

Since 2023 Pilgrim Harps and its dedicated team have relocated to purpose-built workshops equipped with recital studios. This transition not only signifies their continued dedication to the art of harp making but also promises an exciting future where the melodic legacy of Pilgrim Harps will continue to enchant generations of musicians and harp enthusiasts worldwide.

Now this historic site is home to nine unique contemporary conversions.
