# **Energy performance certificate (EPC)**

The Forge Horton Road Horton	Energy rating	Valid until:	30 September 2029
BRISTOL BS37 6QH	D	Certificate number:	0798-5904-7390-6661-8980
Property type	D	etached house	
Total floor area	1	52 square metres	

# Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

# **Energy rating and score**

This property's energy rating is B. It has the potential to be A.

See how to improve this property's energy efficiency.

Score	Energy rating		Current	Potential
92+	Α			102 A
81-91	В		87 B	
69-80	С			
55-68	D			
39-54	E			
21-38		F		
1-20		G		

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

## Breakdown of property's energy performance

## Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Walls	Average thermal transmittance 0.27 W/m²K	Good
Roof	Average thermal transmittance 0.13 W/m²K	Very good
Floor	Average thermal transmittance 0.10 W/mÂ <sup>2</sup> K	Very good
Windows	High performance glazing	Very good
Main heating	Boiler and radiators, oil	Average
Main heating control	Time and temperature zone control	Very good
Hot water	From main system	Average
Lighting	Low energy lighting in all fixed outlets	Very good
Air tightness	Air permeability 5.0 m³/h.m² (assumed)	Good
Secondary heating	Room heaters, wood logs	N/A

#### Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO2. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

- Biomass secondary heating
- Solar photovoltaics

#### Primary energy use

The primary energy use for this property per year is 51 kilowatt hours per square metre (kWh/m2).

## How this affects your energy bills

An average household would need to spend **£677 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £56 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2019** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

## Heating this property

Estimated energy needed in this property is:

- 6,779 kWh per year for heating
- 1,828 kWh per year for hot water

Impact on the env	ironment	This property produces	2.1 tonnes of CO2
This property's environme is B. It has the potential to	i ü	This property's potential production	0.0 tonnes of CO2
Properties get a rating fro (worst) on how much carl they produce each year. <b>Carbon emissions</b>		You could improve this emissions by making th changes. This will help environment.	he suggested
An average household produces	6 tonnes of CO2	These ratings are base about average occupa People living at the pro different amounts of er	ncy and energy use. operty may use

# Steps you could take to save energy

Step	Typical installation cost	Typical yearly saving
1. Solar water heating	£4,000 - £6,000	£55
2. Wind turbine	£15,000 - £25,000	£517

## Advice on making energy saving improvements

#### Help paying for energy saving improvements

You may be eligible for help with the cost of improvements:

• Heat pumps and biomass boilers: <u>Boiler Upgrade Scheme (www.gov.uk/apply-boiler-upgrade-scheme)</u>

#### Who to contact about this certificate

#### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Richard Britton
Telephone	07771 964 593
Email	richard@completeec.co.uk

## Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Stroma Certification Ltd
Assessor's ID	STRO007409
Telephone	0330 124 9660
Email	certification@stroma.com
